## About RBI

The **Reserve Bank of India (RBI)** is the central bank of the country. As per its preamble, RBI is tasked *“to regulate the issue of Bank notes and keeping of reserves with a view to securing monetary stability in India and generally to operate the currency and credit system of the country to its advantage; to have a modern monetary policy framework to meet the challenge of an increasingly complex economy, to maintain price stability while keeping in mind the objective of growth.”*

More generally, RBI is the monetary head of the country and the regulator of the financial system including banking, non-banking, and payment system. As the central bank of the country, the RBI is one of the architects of the nation's economy and its decisions touch the everyday lives of all Indians. From ensuring the stability of interest rates and exchange rates to providing adequate liquidity for productive sectors and ensuring an adequate supply of currency, the RBI also monitors the flow of credit to desired sectors and ensures the orderly development of financial markets and institutions.

### Job Profiles: Grade A and B

As the premier recruitment examination, RBI Grade B positions you for significant opportunities that can arise within the Central Bank.

The role of Assistant Manager (Grade A), as well as Manager (Grade B), are both entry-level positions in the managerial cadre at RBI. With speculation about a potential shift to Grade A recruitment in 2025, all aspirants must prepare comprehensively. Although this change is not confirmed and remains at the discretion of the central bank and the requirement of resources therein, preparing for the Grade B exam ensures you are well-equipped for any upcoming opportunities, including those that may pertain to Grade A roles as well as many other opportunities across Regulatory Bodies, All India Financial Institutions, Insurance Agencies and so on.
